

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

If a stranger had walked into the Piper dressing room Saturday night at Merkel he would have probably thought the Pipers had just won district. The excitement and joy was at such a high pitch it would have been hard to convince him that the Pipers had just finished a 1-9 season.

To the seniors it was a big win because it was their first one in their two years on the Piper varsity. But to the others it was probably an even bigger win because now they can look forward to next year without having to carry that terrible burden of a long losing string.

No one, not even the boys themselves, can ever know just how much a load it was to carry an 11 game losing streak into this season. Without this added burden it could have well been that this would have been an entirely different season—but who really knows.

One thing I was very proud of was that the boys showed improvement every week and never quit trying to improve. If they had been able to play as well at the start of the season as they did at the end, there is no doubt in my mind but what they would have had a much better season. For this improvement I think both the boys and the coaches deserve a great deal of credit—for it would have been so easy to quit when things were not going so well.

For fans who only want to win, the season just past will have to go down as a failure but for fans who can see beyond the record, the season was much better than that. Anytime you have that many young players doing so many things right and putting together as much offense as they did during the season you have to give them credit for a much better season than their record would indicate.

And local fans who like to watch good teams play had a rare opportunity this season as the Pipers played four district champions, Childress, Coahoma, Jacksboro and Stamford. They also played three of the top ten AA teams in the state, according to last week's poll. They were Jacksboro, Coahoma and Stamford.

In closing out this football season I would like to give a special thanks to coaches Deane Wright, Gary Williams and Dick Rogers for their hard work, patience and understanding during this past season when they had so few experienced boys with which to build a team.

I would also like to congratulate the Junior Varsity boys and their coach, Bobby King, for a fine undefeated season.

Congratulations are also in order for the Junior High teams, the eighth grade, coached by Travis Sursa, and the seventh grade, coached by Dan Newberry. The eighth grade was edged out of district honors by Albany but had a tremendous season and the seventh grade got off to a slow start but finished looking strong.

All in all it is hard to see anything but good in the future for Hamlin's football.

This is true if the boys will start right now to work towards a winning season next year. They have to realize that you can not win at football by just working during the 10 or 12 weeks of the season, but must work the year round.

Elsewhere in this issue of the Herald is a story outlining the Christmas promotional program being planned by the Hamlin merchants. This is a project of the Retail Trade Committee of the BCD and is the best program that the local merchants have come up with in years.

In Honolulu, Guam—

Hamlin Native, Ves Townley, Helps Solve Two Big Mail Payroll Thefts

Ves L. Townley of Honolulu, Hi., son of Mr. and Mrs. Everett Townley of Hamlin, became involved in the apparent solution of two recent mail payroll thefts involving \$171,000 and the arrests of five men. Townley is a U. S. Postal Inspector stationed in Honolulu.

The story, as written by Mike Keller, staff writer for the Honolulu Advertiser, cites good detective work, crack shooting and a strange coincidence of events as leading to the solution of the two thefts.

According to the story, the solving of the \$71,000 mail theft led to the solution of the \$100,000 mail theft. But this was not because they were connected but apparently because of newspaper stories saying the wrong case was solved.

Apparently the confusion resulted because there were two mail thefts rather than just one. One was in Honolulu and the other was in Guam, but they both involved payrolls being shipped by mail pouch, both

Lynn Mink Gives P-TA Program Here Thursday

He stressed the importance of good family life and the necessity of parents setting good examples. He elaborated on the problems stemming from lack of discipline and commented that the invention of the electric and safety razor caused discipline to "go down the drain."

"Don't spare the rod or the strap—children want discipline. God has instructed it, use it lovingly," he said.

Mr. Mink then introduced his children as "The New Image," a singing group, and his wife Carol, their accompanist. The children, Sheri, 11, Terry, 12, and Gary, 9, have sung publicly in several states and have appeared on TV in Waco.

Mrs. James Stewart, president, presided.

Mrs. Milton Carter reported on the 18th District of Texas Congress of Parents and Teachers fall workshop held in Abilene Oct. 27. Those attending from Hamlin were Mrs. Stewart, Mrs. Carter, Mrs. Coye Pritchard and Mrs. Steve Reynolds.

A film shown at the workshop, "Just a Minute," will be shown to the local PTA at a later date.

Merle Norman Cosmetic Studio Now Open Here

Latest addition to the business community of Hamlin is the new Merle Norman Cosmetic Studio at 242 S. Central, which will hold a three-day formal opening from 9:30 a.m. to 5:30 p.m. beginning Thursday, Nov. 18, according to Mrs. Robert Fowler and Mrs. Ken Riddle, owners and managers, who will serve as official hostesses.

Unusual aspect of this grand opening, according to Mrs. Fowler is the offer of a free hour of beauty and a complimentary make-up to all girls and women who drop in or call for an appointment.

"In addition," Mrs. Fowler explained, "we'll serve refreshments, give everybody a favor — and there will be door prizes too."

The new Studio, a charming feminine boutique carrying a full line of Merle Norman Cosmetics, will function on a try-before-you-buy premise based on the basic "three steps to beauty" philosophy of this 40-year-old California firm of cosmetics manufacturers.

In line with the overall philosophy of Merle Norman Cosmetics, Mrs. Fowler and Mrs. Riddle, Hamlin's newest Studio owners, completed an intensive training course at Merle Norman Cosmetic Studio Walnut Hills Village in Dallas, where they gained practical knowledge in cosmetics, complexion care and the art of make-up, along with fashion trends and color predictions for the seasons ahead.

The new Merle Norman Cosmetic Studio will be open daily, Monday through Saturday, from 9:00 a.m. to 5:30 p.m.

Mrs. Fowler issued a cordial invitation to every girl and woman in Hamlin to drop in at 242 S. Central for special Grand Opening favors, or phone 576-3741, for an appointment for a Free Hour of Beauty and a complimentary make-up.

FROM THE FILES . . .

FORTY-FIVE YEARS AGO
(November 16, 1928)

The Pied Pipers lost a hard fought battle with Haskell last Saturday 7 to 2 score.

This weekend they are off to Snur.

The Pipers staged a hard battle against the Haskell Indians on Nov. 12, but lost for lack of confidence.

The football boys have made up their minds to give Anson a fight that they have not had this year.

Coach Rowland says that his boys are going to stage a game against Anson that all Hamlin will be proud of and that you will never regret seeing this hard game.

NEINDA NEWS

Several from this community this week are suffering from bad colds. We hope they will soon be allright.

On Friday night, November 16, Neinda High School and grade pupils will give a "mock carnival", "H. Jenks' Great American Circus." Be sure and see Mademoiselle De Bluff, the great French bare-back rider. Senorita Vescolo, the great Spanish tight rope walker.

Come and witness for yourself the marvelous wonders, the beautiful pageants, the gorgeous gowns. Bring the whole family with you for an evening of fun and laughter, of thrills and wonderment; of continuous enjoyment and satisfaction. Yes, we will have drinks and eats, too.

Come one and all!!!

We find that the stucco style is growing in Hamlin and that there are now three homes going up. They are Edward Fairey, Carl Young and one for sale by Cassle & Wilson on Park Street.

McCauley Circuit Sunday, Nov. 18, will be the last Sunday of this Conference Year. Preaching at 11 o'clock at Plasterco. A Pageant at night was given by the McCauley Epworth League.

A box supper will be given by the Neinda Church at the school Auditorium Saturday night, Nov. 17.

We invite you to these services and programs.

TWENTY YEARS AGO
(November 16, 1951)

Hamlin area singers are advised that the Jones County Singing Con-

vention will meet with the Calvary Baptist Church in Stamford Sunday.

Officials of the group declare that everyone is invited to the singing which will get underway at 2:00 p.m.

Branch offices of the Southern Geophysical Company have been located at 48 Northwest Avenue E, in Hamlin, of which G. D. Larson is the manager.

General headquarters of the company, which specializes in oil explorations, is located in Fort Worth. Mr. Larson's permanent residence is in Tulsa, Oklahoma.

A tacky party was enjoyed by members of the Young Adult Class of the First Methodist Church at its regular monthly business and social meeting Tuesday evening at the church.

Ladies' night to be staged by the Hamlin Lions Club next Tuesday evening was the center of attention at the Tuesday luncheon gathering of the civic group at Lang's Drive-in Cafe.

Guests at Tuesday's meeting included H. R. Treadwell and J. H. Ragland of Abilene and George Larson a new Hamlin resident.

TEN YEARS AGO
(November 16, 1961)

The Trade Development Committee of the Hamlin Board of Community Development drew up final plans for the organizations Christmas Opening to be held Saturday, December 2. The Christmas season will get underway here with a street parade headed by Santa Clause on a decorated float.

Max Murrell and Curtis Dodd were named in charge of the parade which is expected to attract a large number of floats competing for the \$50 in prize money offered this year.

The downtown Christmas lights will be turned on Saturday night with Charles Lovell making the arrangements.

There will be a meeting of the VFW, Post 6014, Monday night, at 7:30. All members of the Post are urged to attend according to Paul Galey, post commander.

The regular Jones and Fisher County Singing will be held Sunday at 2 p.m. in the Foursquare Church.

Hunters are warned that it is unlawful to fire rifles on or around either of the City Lakes by the local game warden. The use of shotguns on both lakes is permitted.

While the Pipers were downing the Stamford Bulldogs Friday night, the Tigers were doing their share to put the Pipers into their first Bi-District game since 1940 by dropping Haskell, 20-13. Although the Pipers share the district flag with Anson, they have the honor of representing the district because of their earlier victory over the Tigers.

The Pipers will meet the Quanah Indians in Piper Stadium Friday night at 7:30. The Indians of District 5-AA are undefeated and ranked fourth in the state.

Only about 300 of the 1200 reserved seat tickets available to Hamlin fans were left Wednesday morning. School officials have mailed 750 reserved seat tickets to Quanah for the game.

Everyone is invited to come out and support the Pipers.

congratulations I would like to extend it to the local merchants who have started working together this year through the Retail Trade Committee. I have always felt that if merchants in the smaller towns and cities are to succeed they must join together to offer more services and benefits to their customers.

During this past year, with Charles Reed as chairman, the committee has sponsored two successful Flea Markets and now this Christmas program. With this to build upon it is my hope that they can accomplish even more next year.

Holiday Jobs Build Social Security Protection for Students, Housewives

A million people—students, housewives, and others—will work in holiday jobs in department stores and elsewhere to earn some extra yuletide money this season. Most of them will also be building up their protection under social security, according to social security officials here.

"If your holiday job is covered by social security—and most jobs are—you'll get social security for 3 months' work if you earn \$50 or more in the October-December period," a social security spokesman said. "This is true even though all your earnings come in December."

Work credits build eligibility for social security dis-

ability, survivors, and retirement benefits and for Medicare coverage at 65, he explained.

"Credits earned in holiday jobs can be particularly important to young people," the spokesman said. "For example, a young person who becomes disabled may need credit for as little as 1½ years of work under social security to be eligible for monthly checks. Credit for 3 months of work because of a holiday job can be a big help."

Social security now pays \$279 million a month to almost 2.8 million disabled workers and their families. Work credit also builds eligibility for monthly bene-

fits for the families of young workers who die prematurely. Social security pays \$672 million a month in survivors benefits to almost 6.6 million children, widows, and other survivors of deceased workers, the spokesman said.

Holiday workers should have a social security card, he noted. "Be sure you show your card to your employer so your earnings can be credited to your social security number," he said.

"For more information, call or visit any social security office," the spokesman said.

Classifieds will get the job done.

AUSTIN — Hearings of major interest to insurance policy holders are scheduled here December 8.

The State Board of Insurance slated for that date public airing of new regulations to prevent insurance companies from arbitrarily cancelling coverage and a proposal to lower auto policy rates through "shock-absorbing" bumpers.

Allstate Insurance Company of Illinois recommends a 10 percent premium discount for new cars equipped with the tough bumpers beginning next year. Rates would be reduced to 15 percent if cars can by demonstration take a five-miles-per-hour front-end crash and a two-and-a-half-miles-per-hour rear end wallop. Rates would drop 20 percent if the bumpers can absorb a five-miles-per-hour blow fore and aft.

New federal regulations call for the shock-absorb bumpers with five mph (front) and two-and-a-half mph (rear) capacity by 1973 models.

Proposed regulations would prohibit cancellation of hazard and liability insurance which has been in effect 60 days or more unless holders fail to pay premiums or lose a driver's license (auto coverage).

Under the rules to be examined at the early December hearing, companies would have to give at least 30 days' written notice if they do not intend to renew a policy at the end of a year. Unless the notice is given, renewal would be required for another year. Firms which violate the rules could lose their licenses to operate in Texas.

The latter regulations resulted from special legislation passed this year following repeated complaints of motorists who claimed policies were cancelled without notice.

A hearing was scheduled earlier for December 7 to consider all aspects of problems in operating the new catastrophe property insurance pool in 14 coastal counties.

PAY RAISES ORDERED — The state proposed to begin the last half of this month granting state employees and school teachers pay raises approved by the Legislature unless stopped by the Federal Pay Board.

Governor Smith said an application has been sent to the Pay Board requesting permission to make retroactive raise payments to September 1 when the new state budget took effect.

The Pay Board set a 5.5 percent salary increase guideline on expiration of the wage-price freeze. The Legislature approved a 6.8 percent pay raise for state employees. Texas was the only state government in the country blocked by the freeze from employee pay raises this year. Hikes in other states took effect before the president's order.

AG OPINIONS — "Surge" brakes for small trailers (such as those used in hauling boats) will meet the new requirement of central braking systems for trailers, Attorney General Martin held.

In other recent opinions, Martin concluded:

Counties are responsible for damages inflicted by reserve deputy sheriffs or constables to persons or property, but they are not liable for injuries to the reserve officers.

A local option election to legalize liquor sale cannot be conducted in a new Randall County precinct because it has not been in existence 18 months.

The State Comptroller must transfer to the Texas Vending Commission all records and memoranda needed in enforcing coin-machine license fee requirements.

Counties are not authorized to contract with cities for the municipal tax assessor-collector to assess all property for tax purposes, but can contract for appraisal or assessment recommendations that do not abrogate the county tax assessor-collector's constitutional duties.

School districts may purchase liability insurance for employees who are exposed to individual liability in their duties, but may not buy policies protecting others against tort claims for bodily injury and property damage.

No certificate of authority can be issued to an automobile club whose services constitute an insurance business.

COURTS SPEAK — A state law declaring desecration of the flag a felony was upheld by the Court of Criminal Appeals in a Dallas case where a 20-year-old flag burner got a four-year prison sentence.

The Court's opinion called such acts "an invitation to violence" and said they are not protected by constitutional guarantees of free speech.

The State Supreme Court said it had no jurisdiction in a damage case involving a contractor's suit for damages over failure of metal rods used to raise the "top house" of the famous Tower of the Americas in San Antonio to its lofty place.

VACCINATION OUT — Compulsory vaccination for smallpox has been lifted by the State Board of Health as a requirement for entering school.

Required immunizations effective next January 1 include for grade school pupils diphtheria, tetanus, poliomyelitis, rubella and measles (if the child hasn't had measles). The U. S. Public Health Service recently held compulsory smallpox immunization is no longer necessary in the U.S. since risk of the disease is so small here. Last known cases were in 1949 in the Rio Grande Valley.

SHORT SNORTS Atlantic Richfield Foundation gave Texas Conservation \$5,000 (its first major cash gift) to buy and preserve public lands.

The 26th amendment to the U. S. Constitution lowering the voting age will have enfranchised 664,646 new Texas voters by November, 1972, according to the University of Texas population research center. Projections see a total of more than 1.4 million young Texas voters who were not old enough to vote in the 1968 general election.

Did You Know . . .

New York — (HK) — Someone, somewhere in the United States is injured as a result of a home accident every eight seconds of the day! The Council on Family Health, sponsored by the manufacturers of medicines, says one prime reason for the high incidence of home accidents is the failure of consumers to read labels. If you don't want that someone, somewhere to be you, the Council says always read labels and follow the directions they provide.

Nixon Boosts Bible Week

Washington — (HK) — President Nixon called on families across the nation to mark Thanksgiving Week by beginning the practice of regular Bible reading to "add a new perspective to each day's activities and gain fresh insights on how better to serve both God and their fellowman."

"In its pages Presidents, public servants and citizens of all ages have continued to find the principles on which we have built the American way of life," he added.

The President issued the statement in his role as honorary chairman of National Bible Week, which is sponsored by the Laymen's National Bible Committee, an organization of men and women seeking to foster greater knowledge of Scripture. The first observance was held on Pearl Harbor Day in 1941.

THE

Fine Print

"The large print giveth, and
the small print taketh away."
That old joke about insurance
policies has often had a good
deal of truth in it. Many a cru-
cial clause has been tucked away
in typographical obscurity.

But in recent years, the size
(sometimes even the color) of
the print in insurance policies
has been widely regulated by
statute.

For example, a common re-
quirement in the field of health
insurance is that the exceptions
must be printed at least as plainly
as the benefits. Take this case:

A man disabled by rheumatism
tried to collect on an insurance
policy that promised, in large
lettering, to pay benefits for six
months. But down in the fine
print, the policy cut the payments
to only one month for certain
diseases — including rheumatism.

Was the man bound by the one-
month limitation? A court
decided that he was not. Because
of the substandard size of the
print, said the court, that part of
the policy simply had no legal
effect.

Even if the print is large
enough, it will ordinarily not
carry as much weight as language
that is typewritten or handwritten
into the policy.

Another case involved a life
insurance policy in which the
words "Double Indemnity For
Fatal Accidents" had been in-
serted by typewriter.

Later, double indemnity was
held to be payable, even though
there was conflicting language in
the printed portion of the policy.
The court said that words spe-
cially inserted were more likely
to be correct than words buried
in a standard form.

Of course, anything that clar-
ifies an insurance policy also puts
a greater responsibility upon you
as the policyholder. The clearer
the policy, the less grounds you
have for arguing that you did
not understand what kind of pro-
tection you were getting.

Accordingly, it makes good
sense to examine a policy at the
time you buy it, rather than wait-
ing until you have suffered a
loss. Not even large print, not
even a special notation, can tell
you anything unless you read it.

own peculiar way.

Dear editor:

After following the news
recently about detergents I
have come to the conclusion
that the way of the ecologist is
hard.

As you know, housewives,
after being convinced that
regular detergents coming out
of their washing machines were
putting too much phosphate into
the streams and lakes of the
nation, decided, on the advice of
the authorities, to switch to non-
phosphate brands which quickly
appeared on the market.

Now the Surgeon General has
reversed the advice and says
the new-style detergents have
too much caustic in them and
are therefore unsafe, particu-
larly for children. In fact, he
says the housewives should go
back to the phosphate
detergents for the time being
until something better is found.
I don't know what this does to
ecology but it sure saves two-
thirds of daytime television.

However, I got to thinking.
Was everybody's clothes dingy
before automatic washing
machines were invented? Was
everybody ashamed to hang his
clothes out to dry where neigh-
bors could sneer at them? You
mean every President before

the last four was inaugurated
with a dirty collar?

Of course not. While the
Surgeon General wrings his
hands over having to choose
between phosphate detergents
and caustic detergents, why
doesn't somebody tell him how
clothes used to be washed?

The answer to the problem is
homemade soap, made from
hog fat.

If the professional ecologists
are on the ball they'll come out
with a campaign for a hog in
everybody's backyard and four
washpots in every block.

This will solve the soap
problem.

Of course, it'll give rise to
some other problems, particu-
larly in the summer with a
strong breeze wafting over the
hog pen, but that's not my
problem.

Nowadays, all people want is
a solution to the immediate
problem. The fact that the
solution creates more problems
than the problem is beside the
point and offers a challenge for
more solutions. The men who
invented the atom bomb all won
prizes, but there are even
bigger prizes waiting for those
who can think up something to
do about it.

Yours faithfully,
J. A.

Pipers Break Losing Streak With 31-13 Win Over Merkel

Tears of joy and laughter overflowed the Pied Piper dressing room Saturday evening following the Piper victory over the Merkel Badgers, 31-13. The event marked the end of a 20-game losing streak carrying over three seasons.

The Pipers used the running of Halfback Johnny Jones and Fullback Barry McDonald along with a tight second half defense to overpower the Badgers during their own Homecoming.

Johnny gained 193 yards in 17 carries for a 11.4 average and McDonald carried 25 times for 153 yards and a 6.1 average. Giving up 191 yards on the ground to the Badgers in the first half the Pipers shut them down to a net of 40 yards in the second half.

It began to look like another bad night for the Pipers as the Badgers dominated most of the first period, driving down to the Hamlin 10 and then back down to the Hamlin five. But the Piper defense held both times and then the offense came alive to score in every quarter.

Merkel took the opening kickoff and drove to the Hamlin 10-yard line before they tried to settle for three points. The first Badger field goal attempt hit a wire going across the field and the officials lined them up for another attempt but this one was off to the left.

Taking over on the 20, the Pipers went for the bomb from Milton Jones to Johnny only to have it come up short with Merkel intercepting. The Badgers again drove from their 47 to the Hamlin five before giving up the ball, this time on downs.

The running of Johnny and Barry moved the ball into Merkel's end of the field with Johnny picking up the big gainer on a 39-yard carry. But the drive stalled out on the Merkel 30.

The Badgers fumbled on their first play with Fernando Rangel recovering for the Pipers at the

kickoff and moved 82 yards in five plays for another score. This time Johnny scored from 45 yards out on the pitchout. Again, the two point try was short.

David Willis intercepted a Badger pass with a leaping catch to set up the next Piper score. Taking over on the Hamlin 39, the Pipers failed to make their first down but the Badgers hit Rodgers as he punted giving the Pipers a first down on the Merkel 46. This drive was made on the running of Albert McAfee, Barry and Johnny who combined to give the Pipers a first down on the Merkel eight. Steve Mackey carried to the one and Barry went in for the score. The snap was again fumbled on the point after try.

Merkel was forced to punt again and the Pipers moved to the Merkel 49 before giving up the ball on a fumble. It took the Badgers only seven plays to get on the scoreboard with Monte Tittle scoring from the 11. The two point try failed.

The Pipers moved to the Merkel 27 following the kickoff but a 15-yard penalty put them back on the 43 and time ran out on them three plays later.

Merkel came back to score following the kickoff with a 66-yard drive in six plays with Jerry Holmes scoring on a 34-yard carry. The kick was good and the Piper lead was cut to six.

The Pipers moved to the Merkel 30 before losing the ball on a fumble at the Badger 34. Aided by a 15-yard penalty, the Badgers moved to the Hamlin 27 before the half ended. Johnny made a touchdown saving tackle in the end zone that knocked the ball out of the hands of a Badger receiver in the final seconds of the half.

The Pipers put together three back to back touchdowns in the second half to put the contest out of reach of the Badgers. The first one was an 87-yard drive taking eight plays with Johnny taking a pitchout and racing 32 yards for the score. The two point try failed.

The Pipers forced the Badgers to punt following the

Johnny Jones Leads In Rushing, Scoring Figures

Freshman Halfback Johnny Jones led the Pied Pipers in rushing yardage and scoring during the football season just ended. Playing in eight of the ten games, he rushed for 694 yards in 101 carries for a 6.9 average and scored 44 points.

In the team totals, the Pipers scored 149 points to their opponents' 314, and made 128 first downs to 164. The Pipers rushed 416 times for 1972 yards and a 4.7 average while their opponents rushed 455 times for 2781 yards and a 6.1 average.

The Pipers passed 157 times, completed 51, had 14 intercepted and gained 776 yards, their opponents passed 105 times, completed 30, had seven intercepted and gained 479 yards.

In total offense the Pipers ran 573 plays for 2748 yards for a 4.8 average. Their opponents ran 560 plays for 3260 yards for a 5.8 average.

The Pipers punted 42 times for a 28.5 average and their opponents punted 31 times for a 33-yard average.

The Pipers were penalized 37 times for 367 yards and their opponents 54 times for 498 yards.

The Pipers lost 18 fumbles and their opponents 15.

Questions and Answers

Q. My 12-year-old son and I both received monthly social security survivors payments after my husband's death. When I remarried a year ago, my benefits stopped. Since I was divorced last month, can I again receive monthly benefits on my first husband's earnings record?

A. Yes. Call or visit any social security office to file a new application for benefits. You will need a certified copy of your divorce decree.

Q. I am attending high school and receiving monthly social security benefits as the son of a disabled worker. Is it true that social security will pay part of my college tuition?

A. No. But social security will continue to send you the same monthly cash benefit you are now receiving as long as you are a full-time student, under 22, and not married. You can use this money to help pay your college expenses.

Q. I have a 20-year-old daughter who is studying to be a beautician. If I retire, can she get monthly benefits from social security on my earnings record?

A. If you receive monthly social security benefits, your

daughter can also receive benefits until she reaches age 22 if she is a full-time student at a State-approved school and remains single.

Q. In addition to paying me cash wages, the farmer I work for furnishes me with room and board. Can the value of this room and

board be counted as wages for social security purposes?

A. No. If you work on a farm, only wages paid in cash count for social security purposes.

Q. I recently took a part-time job for the holidays after 12 years of homemaking. I know my social security number, but I have misplaced my card. My employer insists on seeing my card. What must I do to get another one?

A. Ask for a duplicate card at any social security office.

NEWS AND VIEWS . . .

And What Have You By BOB CRAIG

If a stranger had walked into the Piper dressing room Saturday night at Merkel he would have probably thought the Pipers had just won district. The excitement and joy was at such a high pitch it would have been hard to convince him that the Pipers had just finished a 1-9 season.

To the seniors it was a big win because it was their first one in their two years on the Piper varsity. But to the others it was probably an even bigger win because now they can look forward to next year without having to carry that terrible burden of a long losing string.

No one, not even the boys themselves, can ever know just how much a load it was to carry an 11 game losing streak into this season. Without this added burden it could have well been that this would have been an entirely different season—but who really knows.

One thing I was very proud of was that the boys showed improvement every week and never quit trying to improve. If they had been able to play as well at the start of the season as they did at the end, there is no doubt in my mind but what they would have had a much better season. For this improvement I think both the boys and the coaches deserve a great deal of credit—for it would have been so easy to quit when things were not going so well.

For fans who only want to win, the season just past will have to go down as a failure but for fans who can see beyond the record, the season was much better than that. Anytime you have that many young players doing so many things right and putting together as much offense as they did during the season you have to give them credit for a much better season than their record would indicate.

And local fans who like to watch good teams play had a rare opportunity this season as the Pipers played four district champions, Childress, Coahoma, Jacksboro and Stamford. They also played three of the top ten AA teams in the state, according to last week's poll. They were Jacksboro, Coahoma and Stamford.

In closing out this football season I would like to give a special thanks to coaches Deane Wright, Gary Williams and Dick Rogers for their hard work, patience and understanding during this past season when they had so few experienced boys with which to build a team.

I would also like to congratulate the Junior Varsity boys and their coach, Bobby King, for a fine undefeated season.

Congratulations are also in order for the Junior High teams, the eighth grade, coached by Travis Sursa, and the seventh grade, coached by Dan Newberry. The eighth grade was edged out of district honors by Albany but had a tremendous season and the seventh grade got off to a slow start but finished looking strong.

All in all it is hard to see anything but good in the future for Hamlin's football.

This is true if the boys will start right now to work towards a winning season next year. They have to realize that you can not win at football by just working during the 10 or 12 weeks of the season, but must work the year round.

Elsewhere in this issue of the Herald is a story outlining the Christmas promotional program being planned by the Hamlin merchants. This is a project of the Retail Trade Committee of the BCD and is the best program that the local merchants have come up with in years.

Since this seems to be a column of

Local Restaurant Re-opens After Building Collapse

Hamlin Restaurant re-opened last Wednesday after being closed for repairs following the collapse of the back section of the roof Oct. 27.

Repairs to the dining room have not been made but the main part of the restaurant is in operation.

Several persons have volunteered to assist Phil Mann, owner, with the work of replacing the ceiling and paneling and other work in the dining room. The damage was not covered by insurance. The roof collapsed from the weight of water accumulated on the roof when a drain became stopped, Mann said.

In Honolulu, Guam—

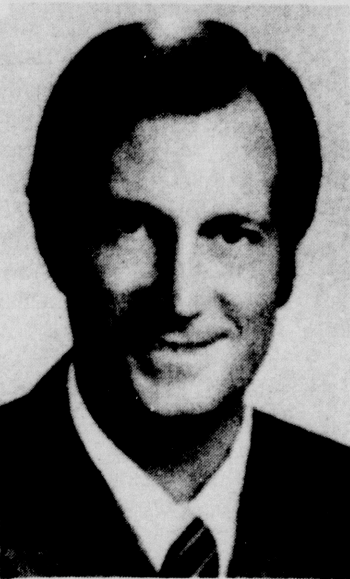

Hamlin Native, Ves Townley, Helps Solve Two Big Mail Payroll Thefts

Ves L. Townley of Honolulu, Hi., son of Mr. and Mrs. Everett Townley of Hamlin, became involved in the apparent solution of two recent mail payroll thefts involving \$171,000 and the arrests of five men. Townley is a U. S. Postal Inspector stationed in Honolulu.

The story, as written by Mike Keller, staff writer for the Honolulu Advertiser, cites good detective work, crack shooting and a strange coincidence of events as leading to the solution of the two thefts.

According to the story, the solving of the \$71,000 mail theft led to the solution of the \$100,000 mail theft. But this was not because they were connected but apparently because of newspaper stories saying the wrong case was solved.

Apparently the confusion resulted because there were two mail thefts rather than just one. One was in Honolulu and the other was in Guam, but they both involved payrolls being shipped by mail pouch, both

involved Pan Am planes, and both involved plans flying from San Francisco to Guam via Honolulu.

Townley and his partner, investigator Akira Murakami, were both assigned to the July 21 theft in Honolulu, but were sent to Guam Sept. 15 to help solve the second mail theft there.

They narrowed the investigation down to Garrido, a 38-year-old parole violator, and caught up with him a couple of nights later near Guam's "boonies" (jungle). He was riding in a new Volkswagen with stolen license plates.

Garrido and an accomplice managed to evade the investigators by driving into the thick jungle growth. The investigators stalked out the area all night and finally spotted the Volkswagen leaving the jungle about an hour before daylight.

A high-speed chase followed, but Murakami narrowed the gap between the vehicles to about three car lengths.

FROM THE FILES . . .

FORTY-FIVE YEARS AGO
(November 16, 1928)

The Pied Pipers lost a hard fought battle with Haskell last Saturday 7 to 2 score.

This weekend they are off to Snur. The Pipers staged a hard battle against the Haskell Indians on Nov. 12, but lost for lack of confidence.

The football boys have made up their minds to give Anson a fight that they have not had this year.

Coach Rowland says that his boys are going to stage a game against Anson that all Hamlin will be proud of and that you will never regret seeing this hard game.

NEINDA NEWS

Several from this community this week are suffering from bad colds. We hope they will soon be allright.

On Friday night, November 16, Neinda High School and grade pupils will give a "mock carnival", "H. Jenks' Great American Circus." Be sure and see Mademoiselle De Bluff, the great French bare-back rider. Senorita Veleco, the great Spanish tight rope walker.

Come and witness for yourself the marvelous wonders, the beautiful pageants, the gorgeous gowns. Bring the whole family with you for an evening of fun and laughter, of thrills and wonderment; of continuous enjoyment and satisfaction. Yes, we will have drinks and eats, too.

Come one and all!!!

We find that the stucco style is growing in Hamlin and that there are now three homes going up. They are Edward Fairey, Carl Young and one for sale by Cassle & Wilson on Park Street.

McCauley Circuit Sunday, Nov. 18, will be the last Sunday of this Conference Year. Preaching at 11 o'clock at Plasterco. A Pageant at night was given by the McCauley Epworth League.

A box supper will be given by the Neinda Church at the school Auditorium Saturday night, Nov. 17.

We invite you to these services and programs.

TWENTY YEARS AGO
(November 16, 1951)

Hamlin area singers are advised that the Jones County Singing Con-

vention will meet with the Calvary Baptist Church in Stamford Sunday. Officials of the group declare that everyone is invited to the singing which will get underway at 2:00 p.m.

Branch offices of the Southern Geophysical Company have been located at 48 Northwest Avenue E, in Hamlin, of which G. D. Larson is the manager.

General headquarters of the company, which specializes in oil explorations, is located in Fort Worth. Mr. Larson's permanent residence is in Tulsa, Oklahoma.

A tacky party was enjoyed by members of the Young Adult Class of the First Methodist Church at its regular monthly business and social meeting Tuesday evening at the church.

Ladies' night to be staged by the Hamlin Lions Club next Tuesday evening was the center of attention at the Tuesday luncheon gathering of the civic group at Lang's Drive-in Cafe.

Guests at Tuesday's meeting included H. R. Treadwell and J. H. Ragland of Abilene and George Larson a new Hamlin resident.

TEN YEARS AGO
(November 16, 1961)

The Trade Development Committee of the Hamlin Board of Community Development drew up final plans for the organizations Christmas Opening to be held Saturday, December 2. The Christmas season will get underway here with a street parade headed by Santa Clause on a decorated float.

Max Murrell and Curtis Dodd were named in charge of the parade which is expected to attract a large number of floats competing for the \$50 in prize money offered this year.

The downtown Christmas lights will be turned on Saturday night with Charles Lovell making the arrangements.

There will be a meeting of the VFW, Post 6014, Monday night, at 7:30. All members of the Post are urged to attend according to Paul Galey, post commander.

The regular Jones and Fisher County Singing will be held Sunday at 2 p.m. in the Foursquare Church.

Hunters are warned that it is unlawful to fire rifles on or around either of the City Lakes by the local game warden. The use of shotguns on both lakes is permitted.

While the Pipers were downing the Stamford Bulldogs Friday night, the Tigers were doing their share to put the Pipers into their first Bi-District game since 1940 by dropping Haskell, 20-13. Although the Pipers share the district flag with Anson, they have the honor of representing the district because of their earlier victory over the Tigers.

The Pipers will meet the Quanah Indians in Piper Stadium Friday night at 7:30. The Indians of District 5-AA are undefeated and ranked fourth in the state.

Only about 300 of the 1200 reserved seat tickets available to Hamlin fans were left Wednesday morning. School officials have mailed 750 reserved seat tickets to Quanah for the game.

Everyone is invited to come out and support the Pipers.

And What Have You

By BOB CRAIG

congratulations I would like to extend it to the local merchants who have started working together this year through the Retail Trade Committee. I have always felt that if merchants in the smaller towns and cities are to succeed they must join together to offer more services and benefits to their customers.

During this past year, with Charles Reed as chairman, the committee has sponsored two successful Flea Markets and now this Christmas program. With this to build upon it is my hope that they can accomplish even more next year.

Holiday Jobs Build Social Security Protection for Students, Housewives

A million people—students, housewives, and others—will work in holiday jobs in department stores and elsewhere to earn some extra yuletide money this season. Most of them will also be building up their protection under social security, according to social security officials here.

"If your holiday job is covered by social security—and most jobs are—you'll get social security for 3 months' work if you earn \$50 or more in the October-December period," a social security spokesman said. "This is true even though all your earnings come in December."

Work credits build eligibility for social security dis-

ability, survivors, and retirement benefits and for Medicare coverage at 65, he explained.

"Credits earned in holiday jobs can be particularly important to young people," the spokesman said. "For example, a young person who becomes disabled may need credit for as little as 1½ years of work under social security to be eligible for monthly checks. Credit for 3 months of work because of a holiday job can be a big help."

Social security now pays \$279 million a month to almost 2.8 million disabled workers and their families. Work credit also builds eligibility for monthly bene-

fits for the families of young workers who die prematurely. Social security pays \$672 million a month in survivors benefits to almost 6.6 million children, widows, and other survivors of deceased workers, the spokesman said.

Holiday workers should have a social security card, he noted. "Be sure you show your card to your employer so your earnings can be credited to your social security number," he said.

"For more information, call or visit any social security office," the spokesman said.

AUSTIN — Hearings of major interest to insurance policy holders are scheduled here December 8.

The State Board of Insurance slated for that date public airing of new regulations to prevent insurance companies from arbitrarily cancelling coverage and a proposal to lower auto policy rates through "shock-absorbing" bumpers.

Allstate Insurance Company of Illinois recommends a 10 percent premium discount for new cars equipped with the tough bumpers beginning next year. Rates would be reduced to 15 percent if cars can be demonstrated take a five-miles-per-hour front-end crash and a two-and-a-half-miles-per-hour rear end wallop. Rates would drop 20 percent if the bumpers can absorb a five-miles-per-hour blow fore and aft.

New federal regulations call for the shock-absorb bumpers with five mph (front) and two-and-a-half mph (rear) capacity by 1973 models.

Proposed regulations would prohibit cancellation of hazard and liability insurance which has been in effect 60 days or more unless holders fail to pay premiums or lose a driver's license (auto coverage).

Under the rules to be examined at the early December hearing, companies would have to give at least 30 days' written notice if they do not intend to renew a policy at the end of a year. Unless the notice is given, renewal would be required for another year. Firms which violate the rules could lose their licenses to operate in Texas.

The latter regulations resulted from special legislation passed this year following repeated complaints of motorists who claimed policies were cancelled without notice.

A hearing was scheduled earlier for December 7 to consider all aspects of problems in operating the new catastrophe property insurance pool in 14 coastal counties.

PAY RAISES ORDERED — The state proposed to begin the last half of this month granting state employees and school teachers pay raises approved by the Legislature unless stopped by the Federal Pay Board.

Governor Smith said an application has been sent to the Pay Board requesting permission to make retroactive raise payments to September 1 when the new state budget took effect.

The Pay Board set a 5.5 percent salary increase guideline on expiration of the wage-price freeze. The Legislature approved a 6.8 percent pay raise for state employees. Texas was the only state government in the country blocked by the freeze from employee pay raises this year. Hikes in other states took effect before the president's order.

AG OPINIONS — "Surge" brakes for small trailers (such as those used in hauling boats) will meet the new requirement of central braking systems for trailers, Attorney General Martin held.

In other recent opinions, Martin concluded:

Counties are responsible for damages inflicted by reserve deputy sheriffs or constables to persons or property, but they are not liable for injuries to the reserve officers.

A local option election to legalize liquor sale cannot be conducted in a new Randall County precinct because it has not been in existence 18 months.

The State Comptroller must transfer to the Texas Vending Commission all records and memoranda needed in enforcing coin-machine license fee requirements.

Counties are not authorized to contract with cities for the municipal tax assessor-collector to assess all property for tax purposes, but can contract for appraisal or assessment recommendations that do not abrogate the county tax assessor-collector's constitutional duties.

School districts may purchase liability insurance for employees who are exposed to individual liability in their duties, but may not buy policies protecting others against tort claims for bodily injury and property damage.

No certificate of authority can be issued to an automobile club whose services constitute an insurance business.

COURTS SPEAK — A state law declaring desecration of the flag a felony was upheld by the Court of Criminal Appeals in a Dallas case where a 20-year-old flag burner got a four-year prison sentence.

The Court's opinion called such acts "an invitation to violence" and said they are not protected by constitutional guarantees of free speech.

The State Supreme Court said it had no jurisdiction in a damage case involving a contractor's suit for damages over failure of metal rods used to raise the "top house" of the famous Tower of the Americas in San Antonio to its lofty place.

VACCINATION OUT — Compulsory vaccination for smallpox has been lifted by the State Board of Health as a requirement for entering school.

Required immunizations effective next January 1 include for grade school pupils diphtheria, tetanus, poliomyelitis, rubella and measles (if the child hasn't had measles). The U. S. Public Health Service recently held compulsory smallpox immunization is no longer necessary in the U.S. since risk of the disease is so small here. Last known cases were in 1949 in the Rio Grande Valley.

New York — (HK) — Someone, somewhere in the United States is injured as a result of a home accident every eight seconds of the day! The Council on Family Health, sponsored by the manufacturers of medicines, says one prime reason for the high incidence of home accidents is the failure of consumers to read labels. If you don't want that someone, somewhere to be you, the Council says always read labels and follow the directions they provide.

Neinda Philosopher Says He Has Answer To Housewives' Problem On Detergents

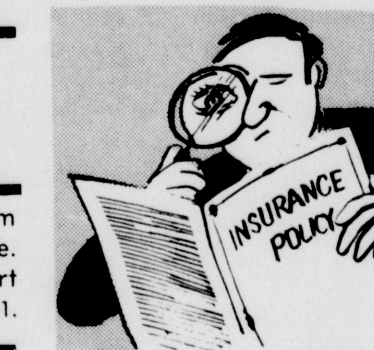

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One tackles the detergent problem this week in his

Fine Print

"The large print giveth, and the small print taketh away."

That old joke about insurance policies has often had a good deal of truth in it. Many a crucial clause has been tucked away in typographical obscurity.

But in recent years, the size (sometimes even the color) of the print in insurance policies has been widely regulated by statute.

For example, a common requirement in the field of health insurance is that the exceptions must be printed at least as plainly as the benefits. Take this case:

A man disabled by rheumatism tried to collect on an insurance policy that promised, in large lettering, to pay benefits for six months. But down in the fine print, the policy cut the payments to only one month for certain diseases — including rheumatism.

Was the man bound by the one-month limitation? A court decided that he was not. Because of the "substandard" size of the print, said the court, that part of the policy simply had no legal effect.

Even if the print is large enough, it will ordinarily not carry as much weight as language that is typewritten or handwritten into the policy.

Another case involved a life insurance policy in which the words "Double Indemnity For Fatal Accidents" had been inserted by typewriter.

Later, double indemnity was held to be payable, even though there was conflicting language in the printed portion of the policy. The court said that words specially inserted were more likely to be correct than words buried in a standard form.

Of course, anything that clarifies an insurance policy also puts a greater responsibility upon you as the policyholder. The clearer the policy, the less grounds you have for arguing that you did not understand what kind of protection you were getting.

Accordingly, it makes good sense to examine a policy at the time you buy it, rather than waiting until you have suffered a loss. Not even large print, not even a special notation, can tell you anything unless you read it.

own peculiar way.

Dear editor:

After following the news recently about detergents I have come to the conclusion that the way of the ecologist is hard.

As you know, housewives, after being convinced that regular detergents coming out of their washing machines were putting too much phosphate into the streams and lakes of the nation, decided, on the advice of the authorities, to switch to non-phosphate brands which quickly appeared on the market.

Now the Surgeon General has reversed the advice and says the new-style detergents have too much caustic in them and are therefore unsafe, particularly for children. In fact, he says the housewives should go back to the phosphate detergents for the time being until something better is found. I don't know what this does to ecology but it sure saves two-thirds of daytime television.

However, I got to thinking. Was everybody's clothes dingy before automatic washing machines were invented? Was everybody ashamed to hang his clothes out to dry where neighbors could sneer at them? You mean every President before

the last four was inaugurated with a dirty collar?

Of course not. While the Surgeon General wrings his hands over having to choose between phosphate detergents and caustic detergents, why doesn't somebody tell him how clothes used to be washed?

The answer to the problem is homemade soap, made from hog fat.

If the professional ecologists are on the ball they'll come out with a campaign for a hog in everybody's backyard and four washpots in every block.

This will solve the soap problem.

Of course, it'll give rise to some other problems, particularly in the summer with a strong breeze wafting over the hog pen, but that's not my problem.

Nowadays, all people want is a solution to the immediate problem. The fact that the solution creates more problems than the problem is beside the point and offers a challenge for more solutions. The men who invented the atom bomb all won prizes, but there are even bigger prizes waiting for those who can think up something to do about it.

Yours faithfully,
J. A.

Pipers Break Losing Streak With 31-13 Win Over Merkel

Tears of joy and laughter overflowed the Pied Piper dressing room Saturday evening following the Piper victory over the Merkel Badgers, 31-13. The event marked the end of a 20-game losing streak carrying over three seasons.

The Pipers used the running of Halfback Johnny Jones and Fullback Barry McDonald along with a tight second half defense to overpower the Badgers during their own Homecoming.

Johnny carried 193 yards in 17 carries for a 11.4 average and McDonald carried 25 times for 153 yards and a 6.1 average. Giving up 191 yards on the ground to the Badgers in the first half the Pipers shut them down to a net of 49 yards in the second half.

It began to look like another bad night for the Pipers as the Badgers dominated most of the first period, driving down to the Hamlin 10 and then back down to the Hamlin five. But the Piper defense held both times and then the offense came alive to score in every quarter.

Merkel took the opening kickoff and drove to the Hamlin 10-yard line before they tried to settle for three points. The first Badger field goal attempt hit a wire going across the field and the officials lined them up for another attempt but this one was off to the left.

Taking over on the 20, the Pipers went for the bomb from Milton Jones to Johnny only to have it come up short with Merkel intercepting. The Badgers again drove from their 47 to the Hamlin five before giving up the ball, this time on downs.

The running of Johnny and Barry moved the ball into Merkel's end of the field with Johnny picking up the big gainer on a 39-yard carry. But the drive stalled out on the Merkel 30.

The Badgers fumbled on their first play with Fernando Rangel recovering for the Pipers at the

Merkel failed to make a first down following the kickoff and punted to the Hamlin 30. Again it was the running of Barry to the middle and Johnny to the outside that moved the Pipers up the field. A screen pass from Milton to Johnny was good for 18 yards and a first down on the Badger 17. Joe Mayes was dropped for a one-yard loss, Milton carried for nine yards and then Joe scored on the option pitchout from Milton from the nine. The snap was fumbled on the point after try and the Pipers led 13-0.

Merkel came back to score following the kickoff with a 66-yard drive in six plays with Jerry Holmes scoring on a 34-yard carry. The kick was good and the Piper lead was cut to six.

The Pipers moved to the Merkel 30 before losing the ball on a fumble at the Badger 34. Aided by a 15-yard penalty, the Badgers moved to the Hamlin 27 before the half ended. Johnny made a touchdown saving tackle in the end zone that knocked the ball out of the hands of a Badger receiver in the final seconds of the half.

The Pipers put together three back to back touchdowns in the second half to put the contest out of reach of the Badgers. The first one was an 87-yard drive taking eight plays with Johnny taking a pitchout and racing 32 yards for the score. The two point try failed.

The Pipers forced the Badgers to punt following the

kickoff and moved 82 yards in five plays for another score. This time Johnny scored from 45 yards out on the pitchout. Again, the two point try was short.

David Willis intercepted a Badger pass with a leaping catch to set up the next Piper score. Taking over on the Hamlin 39, the Pipers failed to make their first down but the Badgers hit Rodgers as he punted giving the Pipers a first down on the Merkel 46. This drive was made on the running of Albert McAfee, Barry and Johnny who combined to give the Pipers a first down on the Merkel eight. Steve Mackey carried to the one and Barry went in for the score. The snap was again fumbled on the point after try.

Merkel was forced to punt again and the Pipers moved to the Merkel 49 before giving up the ball on a fumble. It took the Badgers only seven plays to get on the scoreboard with Monte Tittle scoring from the 11. The two point try failed.

The Pipers moved to the Merkel 27 following the kickoff but a 15-yard penalty put them back on the 43 and time ran out on them three plays later.

Questions and Answers

Q. My 12-year-old son and I both received monthly social security survivors payments after my husband's death. When I remarried a year ago, my benefits stopped. Since I was divorced last month, can I again receive monthly benefits on my first husband's earnings record?

A. Yes. Call or visit any social security office to file a new application for benefits. You will need a certified copy of your divorce decree.

Q. I am attending high school and receiving monthly social security benefits as the son of a disabled worker. Is it true that social security will pay part of my college tuition?

A. No. But social security will continue to send you the same monthly cash benefit you are now receiving as long as you are a full-time student, under 22, and not married. You can use this money to help pay your college expenses.

Q. I have a 20-year-old daughter who is studying to be a beautician. If I retire, can she get monthly benefits from social security on my earnings record?

A. If you receive monthly social security benefits, your

daughter can also receive benefits until she reaches age 22 if she is a full-time student at a State-approved school and remains single.

Q. In addition to paying me cash wages, the farmer I work for furnishes me with room and board. Can the value of this room and

board be counted as wages for social security purposes?

A. No. If you work on a farm, only wages paid in cash count for social security purposes.

Q. I recently took a part-time job for the holidays after 12 years of homemaking. I know my social security number, but I have misplaced my card. My employer insists on seeing my card. What must I do to get another one?

A. Ask for a duplicate card at any social security office.
